Key Num

Topic: **Homework**

Write a summary of your favorite movie.

For example:

Meet the Robinsons

Meet the Robinsons is a **Disney** animated movie about **Lewis**, a brilliant but lonely orphan who dreams of finding his birth family. **After** inventing a memory scanner, he meets a boy named **Wilbur**, who takes him to the future to meet the eccentric **Robinson** family. **Together**, they must stop a villain called **Bowler hat guy**. **Along the way**, **Lewis** learns the importance of embracing failure and "keeping moving forward," ultimately discovering a surprising connection to the **Robinsons**.

Date: **Wednesday, November 20th, 2024**

Key Num

Topic: **Homework**

Lesson 6

- **Language Matters**
- **The Abandoned City**

Date: **Tuesday, November 19th, 2024**

Key Num

Topic: **Reading Strategy**

Reading Strategy: Summarizing (Nonfiction).

A summary of a nonfiction text is a short description.

When you summarize, you should: 1) underline the main ideas and important words, 2) retell the main ideas in your own words, 3) not include details that are unimportant.

Date: **Wednesday, November 20th, 2024**

Lesson 4

- What mysteries does a solar system have?

Lesson 5

- Does matter really matter?

Lesson 6

- What are the ways that material can change?

Date: **Thursday, November 21st, 2024**

Key Num

Topic: **What mysteries does a solar system have?**

The universe

All the stars you see -and the ones you don't- along with planets, galaxies, dust and space are part of the universe.

There are billions of galaxies in the universe, and billions of stars and planets in our galaxy.

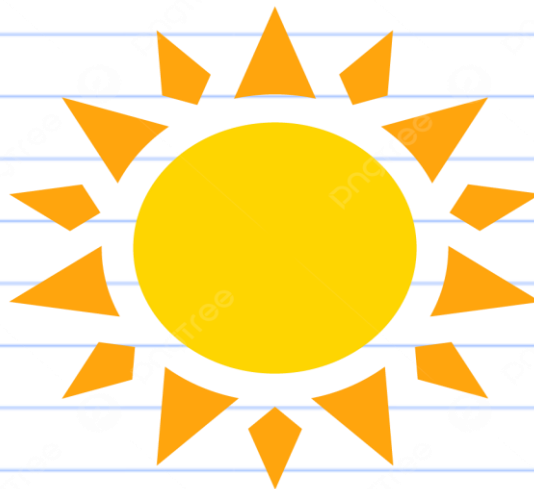

Date: **Thursday, November 21st, 2024**

Key Num

Topic: **What mysteries does a solar system have?**

Solar system

It is made up of the Sun and everything that orbits it. This includes eight planets (**Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and Neptune**), their moons, dwarf planets (like **Pluto**), asteroids, comets, and other space rocks. **The Sun** is the center of the solar system and provides the energy that supports life on Earth.
